HAPPY NEW YEAR

2020

"New Year 2020 Greetings from AUMA India to *infaumation* readers"

Auma India bags orders for supply of actuators in FGD application in various power plants

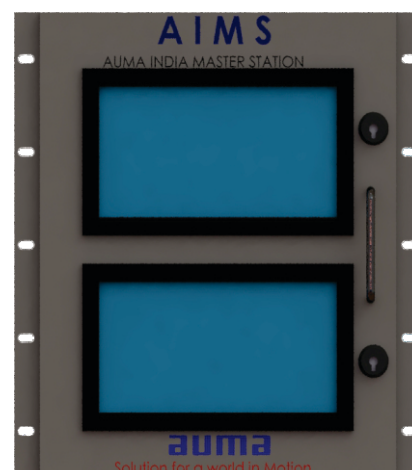

New environmental guidelines and emission norms made it necessary for all major power plants to incorporate Flue Gas Desulphurization (FGD) equipment. Electrical actuators play a major role in operation of FGD. Auma India was involved in the installation of the first FGD equipment at NTPC Dadri Plant. Since then, Auma India has been selected to supply electrical actuators and worm gearboxes to a large number of FGD projects. Auma recently received orders for supply of actuators and gearboxes for Tanda Super Thermal Power Project (Stage II)-2x 660 MW and Feroze Gandhi Unchahar Thermal Power Plant - 1x550 MW.

Auma India Master Station at IOCL Manmad

Auma India Master Station AIMS are installed over 100 locations controlling critical processes on 24/7 basis. AIMS is a scalable, redundant and open architecture control platform which makes it perfectly suited for Industrial applications. Auma is supplying AIMS in redundant HMI configuration with MODBUS communication to IOCL- Manmad for integration and control of field actuators. AIMS can integrate up to 240 actuators in three concurrent lines /loops. AIMS is capable of integrating actuators of up to 10 different makes of actuators.

R & M

IOCL -Bongaigaon which was established in 1974 in Assam, is one of the oldest refineries in India. Bongaigaon Refinery became a subsidiary of IOCL in 2001. Auma India has bagged the order for replacement of other make actuators in the Captive coal-fired power plant in the refinery. Auma actuators with many advanced features like absolute encoder, data logging, MODBUS connectivity, etc would be supplied to meet the requirements of the refinery.

Inside Auma

PUNE OFFICE

Auma India established its operational office in Pune in 1996. Office was then shifted to Kothrud in a company owned premises in 2005. Due to an increase in business and decentralization of activities, a need for even larger space was felt. Auma India Pvt Ltd, Pune office was moved from Kothrud to a company owned office unit located at Supreme Headquarters at Baner, to accommodate more staff.

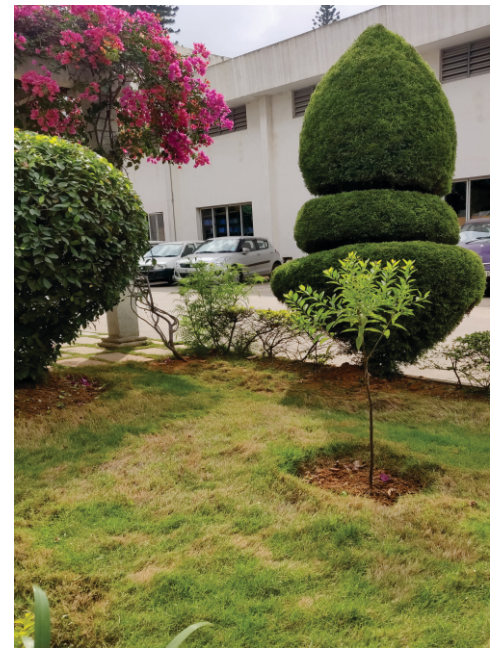

Total area of the new office is 1600 sq ft and it can accommodate 16 employees. Interior design of the office was done by Silhouette Architects & Designers with particular emphasis on environment friendly design. Use of natural lighting was maximized and for artificial lighting, LED lighting have been used. This spacious office has a number of meeting rooms for visiting customers. It is also possible to conduct training program for smaller group of delegates in the office premises. The new office is located on the National Highway which facilitates easy access.

India is a hub for the manufacturing of Engineered Valves and is home to several large manufacturers with a much larger base of smaller manufacturers. There are dedicated industry associations in almost all the major valves and actuators manufacturing countries, but this was not the case so far in India. Hence a need was felt to build a dedicated platform for Valve and Actuator Industry. Auma India was actively involved along with other major players of Industry to form IVAMA Association. A sapling was planted at the premises of Auma India Private Limited, Bangalore by the founding members on 8th April 2018 to mark the beginning of the idea of formation of the Association.

- Founding members at launch of IVAMA Association @ Auma India Pvt Ltd planting the sapling on 8th April 2019

- Sapling at Auma Premises on 18th December 2019

IVAMA Association is a non-profit organization representing Indian Valves and Actuator Manufacturers. The association was registered on 25-09-2019 and the formal launch was done on 3-10-2019 on the sidelines of the FCE Conference in Mumbai. Mr. Arvind K Goel, Managing Director of Auma India is the Founding Chairman of the IVAMA Association. Auma India is proud to be a founding member of the IVAMA Association and expects the Indian Valve and Actuator manufacturing industry to benefit from the association.

The registered office of IVAMA Association is located at Auma facility in Bangalore while operational office is at 3rd Floor, Senthil Towers, 1078, Avinashi Road, Coimbatore 641018. Mr. Muruganantham Ramakrishnan is the Director General of the IVAMA Association.

Membership for IVAMA Association is now available to Indian valve and actuator manufacturers, supply chain members and engineering back offices. Interested companies may register their interest to become a member by logging on the website www.ivama.in.

Customer Service Training Programs

A 3 - day in-house Customer Service Training program, was organized by Auma India from 22nd -24th Oct 2019, which was attended by the delegates from the various End -users, Valve makers & EPC's viz, Bray Controls Technical Services-Bangalore ,Basochhi Hydro Power Plant -Bhutan, Fouress- Bangalore, Delval Flow Controls-Javale , Crane Process Flow Technologies-Satara,JSW Steel Limited Toranagallu.

Auma CSR

Ferdinand Dinhoff - Chief Sales Officer, Auma Germany, along with Arvind K Goel, Managing Director, Auma India, handed over funds to Gandhi Old Age Home and Prassana Trust

Auma India has been active in supporting CSR activities in India for a long time and provide funds to several NGO's working in different areas such as education, old age homes, medical treatment of poor etc.

Auma has provided funds to Prassana Trust and Gandhi Old Age Home in the 3rd quarter of this fiscal year. Prassana Trust provides education and shelter to almost 30 orphan Girl Children and Gandhi Old Age Home provides care and shelter to 150 old people in their facility.
