Solutions for a world in motion

Our Solutions: turn the fortunes of Indian Industry

Auma India is the largest manufacturer of Electric Actuators and Valve Gearboxes for the automation of Industrial valves and dampers in the country.

Auma India's legendary mechanical design capability, combined with advanced electronic controls ensures that our Actuators are the last word in reliability. Our Actuators can provide round-the-clock operations, at various plants in diverse environments.

Be it power, nuclear, water, petroleum, cement or steel, Auma India actuators are at work behind the scenes, controlling some of the most critical processes in industry.

What's more, Auma India also has the widest range of torque solutions from 30 Nm to 360000 Nm.

Our Product Range:

constantly innovating for your
every need

Auma India shares the proud heritage and proven expertise of the Auma Group, head-quartered in Germany.

A combination of world-class, in-house manufacturing and German engineering, enables Auma India to offer a premium range of products to the market.

Product development is a continual process at Auma India and we provide solutions to meet ever-evolving requirements of the Process industry. A modular product design philosophy, provides for easy future upgrades and serviceability.

Auma India's in-house R&D Centre is recognised by the Department of Scientific and Industrial Research (DSIR), Ministry of Science and Technology, New Delhi.

Auma India is also a recognised Export House.

Our Manufacturing Facilities and Expertise: truly world class

The quality of critical components is vital for product excellence.

Auma India has world-class machines such as Horizontal Machining Centres and High-Speed Gear Cutting Machines, for in-house machining of critical components. Sophisticated in-house machining capabilities enable Auma India to manufacture a large variety of superior quality products quickly, thus reducing product delivery time.

Our expansion initiatives and capacity addition have kept pace with the growing demand for actuation products from our customers.

Our Quality: sets the benchmark

Auma India's Quality Management System ensures excellent product and process quality.

Auma India is an ISO certified Company, since 1995 and our products are CE marked.

Auma India has a wide range of testing facilities, for inspection of manufactured components.

Our in-house product testing facilities have sophisticated computerized test rigs, for conducting routine as well as simulated life-cycle tests, in accordance with the latest national and international standards.

Our After-sales Service Network: delivering to your expectations

Auma India is one of the seven global service hubs of the Auma Group.

Our service engineers are strategically placed at over 20 locations across India, to attend immediately to any service requests.

Auma India offers both breakdown as well as Annual Maintenance Contract (AMC) services.

Customer awareness about the product contributes to the effective usage and maintenance at site. To support this, Auma India organizes quarterly training programs, designed to suit the requirements of participants at Bangalore. Specialized on-site training programs are also conducted by Auma India based on customers' requests.

Our Future Plans: vision of a Leader

A leader always looks ahead and Auma India is no exception. In the last few years, Auma India has invested extensively in expansion of manufacturing, R&D and human resources.

Auma India is geared for the future by constantly incorporating the best technologies and industry practices.

Doing our bit for Society

Auma India values the importance of Corporate Social Responsibility and takes up various CSR initiatives, every year.

Some of the important CSR initiatives taken up are:

- Donation of food distribution vans to ISKCON's Akshaya Patra Foundation
- Sponsoring free stationery and furniture for Government Schools in Bangalore
- Maintenance of a 3.2 acres recreational park in Peenya Industrial Area, Bangalore
